

Bryn Cadwgan Energy Park

Pre-Application Consultation – Community Alert

Galileo Empower has launched their Pre-Application Consultation for the proposed [Bryn Cadwgan Energy Park](#), situated on the Carmarthenshire-Ceredigion border. The site is approximately:

- 10 km east of Lampeter,
- 10 km south of Tregaron
- 16 km north of Llandovery

This consultation, running from **20 August to 1 October 2025**, is the final public opportunity to view and respond to the draft application before it's submitted to Planning and Environment Decisions Wales (PEDW) later this year.

The latest proposal includes:

- **19 wind turbines** (17 up to 230m high, 2 up to 200m),
- **12 MW** of solar PV,
- **50 MW** of battery energy storage (BESS),
- Delivering approximately **137 MW** of renewable energy

Local residents, landowners, community groups, and businesses are encouraged to take notice.

Two in-person consultation events will be held:

- **Tuesday 2 September 2025**,
Neuadd Pumsaint Village Hall, SA18 8UW 12:00-17:00
- **Wednesday 3 September 2025**,
Elidyr Communities Trust, SA20 0NL 14:00-19:00

All draft application materials are accessible online via the [project website](#).

Feedback can also be submitted by:

- Email: BrynCadwgan@galileoempower.uk
 - Phone: 01550 910285
 - Freepost: Freepost GRASSHOPPER CONSULT
(no stamp or further address required)
-

Why this matters:

- Plans have evolved since early-stage consultations in 2023—this is your last chance to help shape the final proposal before formal submission.
- The scale of the development—mixed wind, solar, and battery storage—represents a significant change to the landscape and local infrastructure.
- Galileo's stated "Community Offering" includes a community wealth fund, shared ownership opportunities, and local supply-chain engagement—but these depend on the final design and consultation responses.
- This development is one of 4 proposals that join together like a giant jig-saw (Bryn Cadwgan, Waun Maenllwyd, Lan Fawr & Bryn Rhudd)
- [View on Caru Teifi Wind Farm & Pylon Map](#)

Call to action:

- Please take notice, and have your say.
- Attend a drop-in event,
- Review the materials, or
- Send in your feedback before 1 October 2025.

This is your opportunity to influence how—or whether—this Energy Park takes form.
